Upstairs there are three bedrooms, each with its own bathroom and access to a covered terrace.

It is important to note that if the house is bought in the current phase of construction, it is possible to choose ceramics according to one's own taste. It is also important to say that the house was built at the end of the construction zone.

The villa is covered with stone and thus the experience of an autochthonous Istrian house is achieved.

The house is sold without furniture.

If you want to enjoy a spacious villa with a spacious garden, surrounded by greenery, in a quiet Istrian settlement, this villa could be your perfect choice.
